## About

As a full-stack software developer with a background in

both corporate and startup environments, I've had the opportunity to building scalable systems and in the FinTech, design and EdTech Industries.

I am very passionate about EdTech and sharing knowledge with others. If you are looking for a dedicated and motivated team-member for your project, please don't hesitate to get in touch!

## Briefly

- 4 years full-stack experience (Typescript, React, Next, Node, Redux Toolkit, SQL, Docker, HTML5, CSS, PHP)
- Was a lead front-end developer at one the largest russian banks building BI-platform
- Finalist of several large hackathons in Russia
- Ecole 42 alumni - private computer science school with the campuses worldwide

## More

- Mentoring people to help them upgrade their level at programming (and fall in love with it)
- Writing code for people, believer at making programming and technologies overall more accessible
- Worked for a couple of governmental projects but I'm not a Russian spy

## Experience

- Mar 2023 - Jan 2024 **Javascript/Typescript Fullstack Mentor at Elbrus Coding Bootcamp.**  
Lectures, code-reviews, developing tools to automate training and updating study plans to align with current technologies **React**, **Redux Toolkit**, **NodeJS**, **Express JS**, **PostgreSQL**, **Docker**. <https://elbrusboot.camp/>
- Nov 2022 - Jun 2023 **Lead Front-end developer in Moonk design studio.** (freelance, remote).  
Adapted the company's online store for mobile devices, increased accessibility, worked on a cart functionality to increase the company's online sales. **Javascript**, **PHP**, **JQuery**, **SASS**, **HTML** **Figma**. <https://moonk-design.com/>
- Aug 2022 - May 2023 **Software developer in Eburet design studio** (contract, St. Petersburg).  
Developed web-interface for robotic arm of 3D printer used to create furniture from recycled plastic. Implemented and integrated a CRM system into business processes, designed and developed responsive user interface of online-store. **Javascript**, **React.js**, **Python**, **Tailwind**. <https://eburet.com/>
- Sep 2022 - Nov 2022 **Lead Front-end developer in Moscow Post** (contract, remote). Implemented interface for a recommendation service that tells managers in which location is best to place pick-up points. **Javascript**, **React.js**, **Webpack**, **Redux Toolkit**, **SCSS**, **Swagger API** . <https://www.mos.ru/>
- Jun 2022 - Sep 2022 **Full-stack developer at The Ministry of Industries and Production** (contract, remote). Worked on building marketplace of Moscow manufacturers and analytics. Implemented SPA application and collected dataset for our recommendation model. **React.js**, **Python**, **Docker**, **Material-UI**.
- Jun 2021 - May 2022 **Software developer at Sovcom bank** (full-time, Kazan, hybrid). Designed and developed cross browser BI-platform. Handled integration and visualization of data in high-load data warehouse (DWH) **Javascript**, **Chart.js**, **Microsoft SQL Server**, **Docker** <https://sovcombank.ru/en/>
- Aug 2020 - Sep 2022 **Student at Ecole 42 computer science private school** (Kazan, Russia).  
Designed the architecture and implemented a command interpreter in C language, created simple game engine, deployed microservices-based application, implemented standard C++ containers, created unit-test for every container. **C**, **C++**, **Kubernetes**, **Unit Testing**, **TDD** <https://www.barre.one/>
- Sep 2019 - Aug 2020 **Frontend developer at Barre One fitness studio** (full-time, St. Petersburg).  
Designed and developed UX/UI for the company's website and CRM system. Our team (<10 people) managed to make "Barre one" one of the most recognizable fitness companies for women in St. Petersburg in 2020. **JavaScript**, **CSS**, **HTML**, **Usability Testing**, **User Experience (UX)** <https://www.barre.one/>

## Education

**Diploma of Education, Management. Russian Institute of Performing arts, St. Petersburg ·**

Sep 2016 - Jul 2022

As a result of graduate thesis I designed CRM system for performing arts companies, >90% of which did not use it at the moment. 4 large theaters of St. Petersburg showed interest in such software, because it could improve their data storage and help to know their clients better.
