About

As a full-stack software developer with a background in both corporate and startup environments, I've had the opportunity to building scalable systems and in the FinTech, design and EdTech Industries.

I am very passionate about EdTech and sharing knowledge with others. If you are looking for a dedicated and motivated team-member for your project, please don't hesitate to get in touch!

Briefly

- 4 years full-stack experience (**Typescript**, **React**, **Node**, **Redux Toolkit**, **SQL**, **Docker**, **HTML5**, **CSS**, **PHP**)
- Was a lead front-end developer at one the largest russian banks building BI-platform
- Finalist of several large hackathons in Russia

More

- Mentoring others in programming (and helping them fall in love with it)
- Writing code for humans, simplicity is my beauty
- Worked for a couple of governmental projects but I'm not a Russian spy

Experience

- Mar 2023 - Jan 2024 **Javascript/Typescript Fullstack Mentor at Elbrus Coding Bootcamp.** (full-time, St. Petersburg) Lectures, code-reviews, developing tools to automate training and writing assessments **React, Jest, Redux Toolkit, NodeJS, Express JS, PostgreSQL, Docker.** <https://elbrusboot.camp/>
- Nov 2022 - Jun 2023 **Lead Front-end developer in Moonk design studio.** (freelance, remote). Adapted the company's online store for mobile devices, increased accessibility, worked on a cart functionality to increase the company's online sales. **Javascript, PHP, JQuery, SASS, HTML Figma.** <https://moonk-design.com/>
- Aug 2022 - May 2023 **Software developer in Eburet design studio** (contract, St. Petersburg). Developed web-interface for robotic arm of 3D printer. Implemented and integrated a CRM system into business processes, developed online store. **Javascript, React.js, Python, Tailwind.** <https://eburet.com/>
- Sep 2022 - Nov 2022 **Lead Front-end developer in Moscow Post** (contract, remote). Implemented interface for a recommendation service that tells managers in which location is best to place pick-up points. **Javascript, React.js, Webpack, Redux Toolkit, SCSS, Swagger API.** <https://www.mos.ru/>
- Jun 2022 - Sep 2022 **Full-stack developer at The Ministry of Industries and Production** (contract, remote). Worked on building marketplace of Moscow manufacturers and analytics platform. Implemented SPA application and collected dataset for our recommendation model. **React.js, Python, Docker, Material-UI.**
- Jun 2021 - May 2022 **Software developer at Sovcom bank** (full-time, Kazan, hybrid). Designed and developed cross browser BI-platform. Handled integration and visualization of data in high-load data warehouse (DWH). **Javascript, Chart.js, Microsoft SQL Server, Docker.** <https://sovcombank.ru/en/>
- Aug 2020 - Sep 2022 **Student at Ecole 42 computer science private school** (Kazan, Russia). Designed the architecture and implemented a command interpreter. Created simple game engine. Deployed microservices-based application. Implemented standard C++ containers. **C, C++, Kubernetes, Unit Testing, TDD.** <https://42.fr/en/>
- Sep 2019 - Aug 2020 **Frontend developer at Barre One fitness studio** (full-time, St. Petersburg). Designed and developed UX/UI for the company's website and CRM system. Our team (<10 people) managed to make "Barre one" one of the most recognizable fitness companies for women in St. Petersburg in 2020. **JavaScript, CSS, HTML, Usability Testing, User Experience (UX).** <https://www.barre.one/>

Education

Diploma of Management. Russian Institute of Performing arts, St. Petersburg

2016 - 2022

As a result of graduate thesis I designed CRM system for performing arts companies, >90% of which did not use it at the moment. 4 large theaters of St. Petersburg showed interest in such software, because it could improve their data storage and help to know their clients better.
